Elizabeth Butler

I did submit one on behalf of the CAG on community involvement and Tierra also submitted one on the removal.

Subject Re: Passaic Symposium Session

Kirk is traveling and so was not at last night's CAG meeting.

Ed Garvey submitted an abstract on updating the CSM with recently collected data.

Eugenia Naranjo submitted an abstract on sediment transport (greatly simplified preview given to CAG last night was a hit!)

Scott Thompson submitted one on the FFS alternatives.

I submitted one that would provide an overview of all the efforts on the Passaic River (Removal, FFS, 17miles, restoration) - could be an introduction similar to what I did at SETAC.

I believe Elizabeth Butler/Carol Johnston were going to submit one on community involvement (formation/role of CAG) on the Passaic, but I haven't seen it, so would have to confirm if they ever did.

I hear that the CPG submitted 4 abstracts on sediment stability (although Kirk told them they could only have 2 speaking slots) and Bill Hansen submitted one on sediment stability too. Are you organizing just the agency efforts or including CPG ones too?

Subject: Passaic Symposium Session

Hello all!

Sorry I missed last nights' CAG meeting. I was wondering if you all submitted abstracts for the Lower Passaic session as usual. I had told Kirk I would set up the session and was totally lame with following through. I know that the abstract date has come and gone (April 1), but assumed that each agency/mission (Tierra Removal talk, FFS talk, 17-miles, NRDA, Restoration) would be represented. Can you guys get back to me with what you all have planned. I assume Kirk was at the CAG last night and the Dave you have been working with him on this.

Thanks much!

Lisa
